

BubbleScan 301 - Classroom OMR Scanner

NEW

Pricing shown in this document is subject to change.

OMR Scanner

BubbleScan 301 is the economical way to save time scoring tests and quizzes.

PC-Connection: USB

Readhead: Single

Feed Method: Manual

Throughput: 25-30/min

Form Marking: #2 pencil or blue/black ink

Form Size: width - 3.25"; length - 3.25" to 14"

Scanner Weight: 2.5lbs

Scanner Size: 5.5" x 5.5" x 2.5"

Operating Conditions: 41-113 F, 30-80% humidity

Power: Universal power adapter input: 110-240VAC, 47-63 Hz; output: 9V, 2A

Software

BubbleScan 301 ships with the BubbleWare software.

BubbleWare stores answer keys and test data. It allows for the creation of customizable student, summary and analysis reports and exports user-defined summary data.

Questions can be grouped into and scored by sections (standards).

Students can score their own quizzes in *Form View*.
